

## Talks in conferences

- Change of variables for weighted Hardy spaces on a domain, *Harmonic Analysis and Partial Differential Equations with Applications*, Beijing Normal University, Beijing, China, May 28, 2009.
- Weighted Hardy spaces on an interval and Jacobi series, *Function Spaces VIII*, The Mathematical Research and Conference Center, Bedlewo, Poland, July 2006.
- Weighted Hardy spaces on an interval and Poisson integrals associated with ultraspherical series, *20th Mini-Conference in Harmonic Analysis*, Auburn University, USA, November 2004.
- Singular integrals and transplantation theorems, *Autumn meeting of the Mathematical Society of Japan*, Shimane University, September 2002.
- Transplantation theorem for Jacobi series in weighted Hardy space, *Harmonic Analysis and its Applications*, ICM2002 Satellite Conference, Hangzhou, PR of China, August 2002.
- Hardy type function spaces and its application, *Function Spaces, Differential Operators, and Nonlinear Analysis*, Teistungen, Germany, June 2001.
- Some remarks on Herz-type Hardy spaces, *Real Analysis and Related Topics*, Tohoku University, March 2000.
- BMO and its application — the factorization theorem of Akihito Uchiyama —, *Harmonic Analysis and Nonlinear Partial Differential Equations*, Research Institute for Mathematical Sciences, Kyoto University, July 1999. (Recorded in Japanese in Kokyuroku 1162, pp. 53–79.)
- Estimates for the product of singular integrals in Hardy type spaces, *Singular Integrals and Related Topics*, Nara Women's University, January 1999.
- Hardy space estimates for sum of products of singular integrals, *Contact of Harmonic Analysis, Partial Differential Equations, and Complex Analysis*, Tohoku University, January 1998.
- On estimates for product of functions, *Harmonic Analysis and Nonlinear Partial Differential Equations*, Research Institute for Mathematical Sciences, Kyoto University, October 1997.

- On the function space  $C_p^\alpha$  of DeVore and Sharpley, *Harmonic Analysis and Partial Differential Equations*, Tohoku University, January 1993.
- An extension theorem for the Hardy-Sobolev space, *11th Workshop in Pure Mathematics, Complex Analysis Session*, Mokpo National University, Korea, July 1991.
- A real variable characterization of the Hardy space on the product domain, *11th Workshop in Pure Mathematics, Complex Analysis Session*, Mokpo National University, Korea, July 1991.
- Maximal functions and function spaces on Euclidean domains, *Harmonic Analysis, Sendai 1990*, ICM90 Satellite Conference, August 1990.
- $H^p$  spaces on an arbitrary open subset of  $\mathbb{R}^n$ , Autumn meeting of the Mathematical Society of Japan, Kanazawa University, October 1988.
- On the boundedness of pseudo-differential operators of class  $S_{\rho,\delta}^m$ , *Symposium on Real Analysis and Functional Analysis*, Naruto Kyoiku University, July 1986.
- A factorization theorem in Hardy spaces, *Analysis Conference, Singapore 1986*, National University of Singapore, June 1986.
- Boundedness of pseudo-differential operators with non-regular symbols, *Analysis Conference, Singapore 1986*, National University of Singapore, June 1986.
- Estimates for pseudo-differential operators with exotic symbols, *Analysis Conference, Singapore 1986*, National University of Singapore, June 1986.
- Some remarks on Fourier multipliers for  $H^p$  spaces, *A Symposium on Functional Analysis*, Hokkaido University, February 1983.
- On Fourier multipliers for  $H^p(\mathbb{R}^n)$ , *Annual meeting of the Mathematical Society of Japan*, Shinshu University, April 1980.
- On the weakly strongly singular integral, *Symposium on Real Analysis and Functional Analysis*, Kujukuri Center, Chiba, July 1976.
